

# Georgia Rental Assistance

## Available Now!

<https://georgiarentalassistance.ga.gov/>

**TALK TO YOUR LANDLORD. GET LANDLORD CONSENT TO APPLY.**

**Tenants may receive funding if the landlord does not qualify.**

1. Contact your landlord, and tell them you qualify for GA Rental Assistance, and you'd like their help in completing their documentation, so you can get it. They need to show ownership of the property, documentation they have paid income taxes, and information concerning how to directly deposit the check to their account. In addition, they must confirm the tenants' names and that they intend to continue to live on the property.
2. Go to [milledgevillecares.com](http://milledgevillecares.com) and click on the green banner at the top—GA Rental Assistance Program.
2. You will be taken to the page that needs to be used for both the tenant and the landlord to apply (at the bottom). Both need to complete the application, and **both parties need to click on their site daily to see their progress in completing the application correctly. You do not need to start from the beginning. Click on Go to My Page (or something similar) to make corrections.**
3. Providers will notify parties of how to complete the application correctly. Check your site daily.
4. If tenants are eligible for funding, the landlord will be notified and must accept the funding within 5 days of their notification. **Failing of the landlords to accept the funding within 5 days will result in funding going to the tenant.**
